

1. Fodder Crop demo and establishment of Hydroponic equipment

A fodder crop demo of Hydroponics Fodder was organized during the month of August. PS indemo were sensitized about the benefits of hydroponics fodder system to obtain green fodder round the year for their livestock at reduced cost.

TGT technical expert introduced and displayed demo for hydroponics process. Pashu Sakhi participated at each step of the process to understand the mechanism. High enthusiasm was observed among the rural cadre for state-of-the-art technology.

Hydroponics equipment was installed to move ahead with fodder crop demo. The machine is handed over to Farmer Producer Organization to manage and run.
